

How I work with Excel

From fragile spreadsheets to confident, scalable analysis

01

Individuals

- Self-paced courses & live workshops
- Learn when to use formulas, Power Query, Python, and Copilot
- Focus on clarity, maintainability, and confidence

02

Teams

- Practical corporate training
- Apply modern Excel patterns to real workflows
- Reduce errors, rework, and one-off fixes

03

Organizations

- Guided, multi-week modernization program
- Teams learn to build pipelines, automation, and documentation
- Internal ownership of reliable, auditable workflows
