

Practical AI & analytics webinars

Help your members and customers put workplace technology to use.

Partner-funded sessions. Free for attendees.

CHOOSE THE SESSION

AI briefings

A practical perspective on AI at work: where it helps, where it falls short, and what to try next.

Software & workflow demos

Explore a business task with an AI tool, an Excel add-in, or another relevant platform. Hands-on evaluation comes first.

Practical workshops

Teach a focused skill through clear demonstrations, questions, and a useful takeaway.

A PARTNERSHIP BUILT ON TRUST

Products are selected for audience fit and usefulness. Sponsorship is disclosed, with room for candid discussion of limitations and tradeoffs.

Work with George Mount

Founder, Stringfest Analytics
Microsoft MVP
LinkedIn Learning instructor
O'Reilly author

A proven format

With Alpha Development, George delivered a three-part Copilot in Excel series with free sessions and practice materials.

Plan it together

We agree on the audience, content, promotion, hosting, and replay use. Your proposal defines the fee and deliverables for a webinar or short series.

Let's plan a session worth attending.

Share your audience, topic, timing, and budget.
